

Shivani Gholap

Final-Year B.Tech AI & ML Student | +91-9096445240 | shivanigholap9021@gmail.com |
Linkedln: shivani-gholap | GitHub: shivaniGholap25 |

PROFESSIONAL SUMMARY

Final-Year B.Tech student specializing in Artificial Intelligence and Machine Learning with expertise in Python, Machine Learning, Deep Learning, NLP, FastAPI, Generative AI, and LLMs. Passionate about building intelligent systems and solving real-world problems through AI-driven solutions. Strong problem-solving skills with hands-on experience in developing scalable applications and continuously improving through DSA and LeetCode. .

EDUCATION

B.Tech. in AI & ML	D.Y.Patil College of Engineering and Technology , kolhapur GPA : 7.47	2023 – Present
HSC	New Model Junior College , Kolhapur Marks : 59.00%	2021 – 2023
SSC	New Model English Medium School , kolhapur Marks : 78.60%	2021

TECHNICAL SKILLS

Languages : Python, C,c++ SQL
Core CS : Data Structures & Algorithms
Web & Backend : FastAPI, Flask, REST APIs, Streamlit
Databases : MySQL , SQL lite
ML / AI : Generative AI, LLM Applications, Machine Learning, Deep Learning, NLP, CNNs
Tools : Git, GitHub, Jupyter Notebook, VS Code
Visualization : Pandas, NumPy, Matplotlib, Seaborn, Plotly, Excel
Soft Skills : Analytical Thinking, Team Collaboration, Effective Communication, Problem Solving, Adaptability
Coding : Solved 80+ problems on [LeetCode]

PROJECTS

- AI-Powered ATS Resume Builder** | *Flask, Python, HTML, CSS*
[GitHub]
- Developed an AI-powered Resume Builder to generate ATS-friendly resumes with dynamic content generation based on user input.
 - Built backend APIs for resume creation, data processing, and real-time resume preview to ensure efficient data handling.
 - Integrated customizable templates and PDF export functionality, improving resume quality and ATS compatibility through AI-assisted content generation.
- Smart Online Shopping Prediction** | *Python, Scikit-learn, Streamlit, SHAP*
[GitHub]
- Developed a machine learning system to predict online purchase intent using customer behavior data from 12,000+ e-commerce sessions.
 - Built and evaluated Logistic Regression, Random Forest, ANN, and Ensemble models, achieving up to 89% accuracy and 88% F1-score.
 - Integrated SHAP explainability and a Streamlit dashboard for real-time predictions, customer segmentation, and business insights.
- Job Guard – Fake Job Offer Detector** | *FastAPI, Groq LLM, Chrome Extension, JavaScript*
[GitHub]
- Developed a Chrome Extension that detects fake job offers using rule-based risk analysis and Llama 3.3-70B via the Groq API.
 - Built a FastAPI backend to generate risk scores, classify suspicious job postings, and provide AI-powered explanations.
 - Implemented real-time detection of scam indicators such as fake recruiter emails, registration fees, urgency tactics, and unrealistic salary offers.

CERTIFICATIONS

Fundamentals of Accelerated Computing with CUDA C/C++ NVIDIA	October 2024
GenAI Professional Oracle	October 2025
AWS Cloud Foundations AWS Academy	December 2025

EXTRA CURRICULAR ACTIVITIES

- Bharatanatyam Performer (Visharad Certified)**
- Completed Visharad certification in Bharatanatyam and performed in multiple cultural events, demonstrating discipline, consistency, and stage performance skills.
